He is a son of Capt. and Mrs. T. A. Bass of Pahokee. A year ago he had an office in Pahokee, visiting it once a week. He found, however, that it was impracticable to divide his time with West Palm Beach, hence the establishment of the permanent office here.

RESPECTING THE RIGHTS OF OTHERS
By George Cranford

Our government extends to every person certain right. Each individual has the right to do as he pleases as long as he does not infringe upon the rights of others.

We enjoy the rights of life, liberty and the pursuit of happiness, which as stated by the Declaration of Independence, are the "inalienable rights of man."

We should respect the rights of others as well as expect others to respect our rights. Not only do we extend to personal rights but also to the right to own property.

We are often entering public buildings and we should remember not to damage them. This is indeed infringing upon the rights of others for buildings are owned by a group of people, not one of whom should trespass upon the rights of others by damaging it.

This is in a certain degree, but after a building has been damaged it is of less value. Consequently we should remember that we are only persons in our public building and that we should respect the rights of others by keeping them intact. It benefits our community and through this, we too benefit.

O. W. Kelley of West Palm Beach, connected with the Salvation Army, was in the upper Glades recently accepting contributions for the Army's Christmas fund. Mr. Kelley drove the mail bus for Arthur Flitiguth until the present star route courier made a lower bid and took the job and in consequence of his trips into this region Mr. Kelley is well known here.

J. C. Lastinger has moved from Pahokee to Sarasota, where he will represent the Rawleigh company. Mr. Lastinger was a resident of the Glades region for many years. He is affable and conscientious, a man of energy and probity, and we commend him to the people of his new home as a good neighbor and a good citizen.

Now that "nest money" is coming in, people on the coast who never showed much interest in us before are coming out to tell us how well we are looking and asking if they can't sell some insurance or take our order for a suit of clothes or do something of that kind for us. So many East Beach people have been stuck with stock in worthless east coast corporations that stock alonists are not well received but there are plenty of other grafts.

Traffic on Conners highway does not show any material increase except of trucks carrying hampers. It is true that a foreign license car is seen.

B. T. Shaw and his sister Mrs. Shaw W. Alchins were guests in the week of Mr. and Mrs. R. F. Lewis of the Everglades filling station. The Shaws are brother and sister of Mrs. Lewis.

Stories were broken into the first of the week and did not diminish were rife. Petty depredations along the ridge are reported. Among those attending the Oregon-Florida football game at Miami last Saturday were Mr. and Mrs. W. P. Jennings, Jr. and Mrs. H. L. Speer. Mrs. Dow Geiger, Mr. and Mrs. Louis C. Goolsby, Thurmond Knight, T. K. Gilchrist, C. C. Coleman and several others. Dr. and Mrs. F. J. Schmidt of Palm Beach and son J. Oscar Schmidt of Chicago, visited the Everglades section of Palm Beach county Thursday.

The Junior Red Cross packed their Christmas box for the soldiers at Key West this week.

Mrs. Jennings, Mr. and Mrs. Speer, Mrs. Goolsby and C. L. Wilder report a good trip to Miami to see the football game last Saturday. The car C. L. was in had a little trouble on the road, but he got home in plenty of time for the game.

Six week tests come this week. Well, we will have next week to forget about them before Christmas.

The community Christmas tree will be here on the school grounds Monday evening before Christmas. Some of the school pupils will be in the program to be given at the tree.

Mrs. Filly gave a flag to the ninth and tenth grade room last week.

GIRLS' SPORT NEWS

Vera Todd The girls are showing their appreciation of the new basket ball court by coming out every afternoon for a good practice. If the schedule can be so arranged, they plan on playing one game before Christmas holidays.

All the pupils in physical education period yesterday. In looking over the weight chart we notice that school seems to be agreeing with everybody for nearly every pupil has gained from one to five pounds since school began.

If anybody wants some fresh vegetables they might call on the school members of the eighth grade. The class gardens are flourishing and pupils are ready to sell turnips, radishes, beans and mustard. There are some tomato plants for sale, and cabbage and onions will soon be ready.

Mr. Yarborough and Mrs. Taylor represent the Community Church as delegates on these committees; Mrs. Sims and Mrs. W. H. Vann were delegates from the Women's Club; Mrs. Adams and Mrs. Littman from the Eastern Star; Mrs. Goolsby and Mrs. Jennings from the Methodist Church; Mrs. Winne and Mrs. Paul C. Filly from the Home Demonstration Club and the delegates from the Baptist church are to be selected by Mrs. Earl Mulholland will help with the music on the program.

The evening of Monday, December 23, has been selected for the community program. The Women's Club has agreed to be the sponsor of the festival. The county school board will be invited to attend and take part. Every citizen is cordially invited to come and to help us make this the greatest celebration ever staged in the history of the community. It is hoped this will become an annual affair.

HOME ECONOMICS

The Home Demonstration Club met at the school Friday. Roll call was answered by the members giving a recipe made with milk. Ten minutes of each meeting is devoted to health and nutrition. The special demonstration at this meeting was preserving kumquats. Mrs. Barga brought some that she had prepared at home so that each might sample the finished preserve.
We had several new members join us and an invitation is extended to other women in Canal Point to become members of this instructive organization. The meetings are held the first Friday in each month at the school at 2:30 p. m.

If anyone knows of a child to whom Santa Claus would not otherwise be able to pay a visit will they kindly hand the name to Rev. H. H. Plank or Mrs. J. M. Tompkins.

WHAT PEOPLE SAY

C. E. Simmons of Okechobee: I farmed in Okechobee county for 15 years and observed the action of every trucker doctor, and it is my judgment that emulges or heaters or other devices are futile efforts to protect beans. Heaters probably are all right in groves, where the overhanging limbs and foliage make a space in which warm air can be confined but on open spaces it is not practicable to get enough heat to save beans from frost. Circulating water in open ditches and raising a fog is a better method than heaters for beans. But the water should be kept moving in the ditches and below the surface of the ground."

Six inches of rain fell through northern Dade county Wednesday. It was the heaviest rain that ever fell there in a December. The rain extended as far north as West Palm Beach. Injury is believed to have been done to beans and other vegetables in Broward county.

"Nighthawks" is the name by which an orchestra from Shawano in Wisconsin, Shawano is the Brown Company's camp on Hillsboro canal. The Nighthawks is reputed to be a superb musical organization and is much sought for dances around the lake.

Brazilian oaks are being planted at Port Mayaca as windbreaks. This tree is of the same family as Australian pines. The young trees are obtained at Homestead.

Satisfaction is expressed all around the lake with the present level of Okechobee, no apprehension being expressed that the lake will go too low. The lake went quite low last spring but normal
